

Bean Bag Target

At the birthday party, players tossed 4 bean bags onto the target on their turn.

Then they played “Guess which rings I landed on to make my score.”

Problem

Which rings did each child land on?

Bean Bag Target

Sting in the Tail

There are only four scores that can be made in two different ways when four bean bags are tossed onto this target. These are:

31, 35, 40 and 50.

What are the two different ways in which each of these totals can be made?
